

### 3240

#### 1/2 HP Screw Drive Garage Door Opener

The 3240 1/2 HP Screw Drive Garage Door Opener is smooth-running, even in the most extreme temperatures, and is the perfect choice if you want the latest advancements in smooth-running performance with a completely maintenance-free drive system. Our engineers replaced the two-piece plastic liner and aluminum rail system with a stronger, simpler one-piece galvanized steel rail, resulting in reduced friction and eliminating binding and the need for lubrication. And the 1/2 HP motor is equipped with our patented Motor Vibration Isolation System (MVIS®) to reduce noise and provide smooth operation year after year

- **The Smart Garage Door Opener®** lets you electronically program security codes from the Multi-Function Control Panel or the powerhead
- **Delivers 200 watts of light** with adjustable light time delay
- **Meets all UL325 requirements**

#### SAFETY & SECURITY FEATURES

- **The Protector System®** safety sensors project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down
- Sensing technology will **stop the door from closing if contact is made** with a person or object
- Opener lights turn on automatically when The Protector System's infrared beam is broken
- **Security+® rolling code technology** assures a new code is sent every time the remote control is used
- **Patented PosiLock®** system ensures the door remains securely locked when the garage door is closed
- **Manual release handle** in case of power failure

#### WARRANTY

- Lifetime motor warranty
- 1-year parts warranty
