

3275

3/4 HP Chain Drive Garage Door Opener

If you're a chain drive loyalist who is looking for more power in a garage door opener, the LiftMaster® 3275 3/4 HP Chain Drive Garage Door Opener is the perfect solution. Its finely-tuned, yet ruggedly designed 3/4 HP motor, combined with our patented Motor Vibration Isolation System (MVIS®), provides the precise synergy needed to open heavy garage doors quickly and quietly.

- High-efficiency motor delivers **improved performance in extreme weather conditions**
- **The Smart Garage Door Opener®** lets you electronically program security codes from the Multi-Function Control Panel or the powerhead
- Enclosed gear case provides continuous lubrication and protection for **longer life and smoother operation**
- Non-yellowing hinged light lenses for **easy bulb replacement**
- **Delivers 200 watts of light** with adjustable light time delay
- **Meets all UL325 requirements**

SAFETY & SECURITY FEATURES

- **The Protector System®** safety sensors project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down
- Sensing technology will **stop the door from closing if contact is made** with a person or object
- Opener lights turn on automatically when The Protector System's infrared beam is broken
- **Security+® rolling code technology** assures a new code is sent every time the remote control is used
- **Patented PosiLock®** system ensures the door remains securely locked when the garage door is closed
- **Manual release handle** in case of power failure

WARRANTY

- Lifetime motor warranty
- 1-year parts warranty
