

3595

3/4 HP Carriage House Garage Door Opener

You've got carriage house or custom-designed solid wood garage doors, and we've got the dependable 3/4 horsepower heavy-duty garage door opener to lift them. The LiftMaster® 3595 3/4 HP Heavy-Duty Chain Drive Garage Door Opener is one of the only three professionally-installed garage door openers with 3/4 horsepower strength. Designed to lift even the heaviest custom garage doors, it has a rugged I-beam rail and chassis support bracket, and offers a 2-speed dual sprocket customizable to door requirements. Our patented MVIS® (Motor Vibration Isolation System) also makes it the quietest chain drive on the market.

- **Opens up to 14' high doors** with optional rail systems (max door opening 13' 6")
- High-efficiency motor delivers **improved performance in extreme weather conditions**
- **The Smart Garage Door Opener®** lets you electronically program security codes from the Smart Control Panel® or the powerhead
- Enclosed gear case provides continuous lubrication and protection for **longer life and smoother operation**
- A **6-foot power cord** makes connecting to a power source easier than ever
- **Delivers 200 watts of light** with adjustable light time delay
- **Meets all UL325 requirements**

SAFETY & SECURITY FEATURES

- **The Protector System®** safety sensors project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down
- Sensing technology will **stop the door from closing if contact is made** with a person or object
- Opener lights turn on automatically when The Protector System's infrared beam is broken
- **Security+® rolling code technology** assures a new code is sent every time the remote control is used
- Patented **PosiLock®** system ensures the door remains securely locked when the garage door is closed
- **Manual release handle** in case of power failure

WARRANTY

- Lifetime motor warranty
- 5-year parts warranty
