### Premium Remote Control

Never fumble in the dark for your garage door remote control again. The Premium Remote Control from LiftMaster® is the only remote control that automatically lights up as you bring your hand nearby, so you'll always know exactly which button to press, even in the dark. Plus, it can control up to three garage doors or gates from greater distances with the reassurance of Security+® rolling code technology.

- Sleek and stylish, leather-like grip
- Motion-detecting feature streams brilliant blue light from the push button windows
- batteries included; built-in technology uses "sleep" mode to conserve battery power when not in use
- Compatible with LiftMaster 3000-series garage door openers and all 315MHz LiftMaster and Elite gate operators

#### Compatible only with the following:

- Garage door openers with a purple learn button, or
- If your original remote has silver buttons with glowing blue lights, or
- If your original remote has black buttons and this logo:

## 371LM/971LM

### Single-Button Remote Control

Our basic single-button remote control isn't so basic. It can operate a single garage door or gate, or turn your garage door opener lights on/off. You can also use it as an extra remote control to turn on lights or small appliances inside your home – all from the comfort of your car. It features Security+® rolling code technology that sends a brand new code every time it is used. One 5-year 3-volt battery is included.

**The MHz frequency of your garage door opener will determine what remote controls will work with your system. See below to find out which remote to order.**

#### Order the 371LM if:

- Your garage door opener motorhead has a **purple learn button**, or

- Your garage door opener motorhead has a purple antenna, or
- Your original remote has silver buttons with glowing blue lights, or
- Your original remote has black buttons and this logo: 

**Order the 971LM if:**

- Your garage door opener motorhead has an orange learn button, or
- Your garage door opener motorhead has a gray antenna

**372LM/972LM**

**2-Button Remote Control**

Our basic 2-button remote control isn't so basic. It can operate up to 2 garage doors or gates, and/or turn your garage door opener lights on/off. You can also use it as an extra remote control to turn on lights or small appliances inside your home – all from the comfort of your car. It features Security+® rolling code technology that sends a brand new code every time it is used. One 5-year 3-volt battery is included.

**The MHz frequency of your garage door opener will determine what remote controls will work with your system. See below to find out which remote to order.**

**Order the 372LM if:**

- Your garage door opener motorhead has a purple learn button, or
- Your garage door opener motorhead has a purple antenna, or
- Your original remote has silver buttons with glowing blue lights, or
- Your original remote has black buttons and this logo:

**Order the 972LM if:**

- Your garage door opener motorhead has an orange learn button, or
- Your garage door opener motorhead has a gray antenna

## 373LM/974LM

### 3-Button Remote Control

Our basic 3-button remote control isn't so basic. It can operate up to 3 garage doors or gates, and/or turn your garage door opener lights on/off. You can also use it as an extra remote control to turn on lights or small appliances inside your home – all from the comfort of your car. It features Security+® rolling code technology that sends a brand new code every time it is used. One 5-year 3-volt battery is included.

**The MHz frequency of your garage door opener will determine what remote controls will work with your system. See below to find out which remote to order.**

#### Order the 373LM if:

- Your garage door opener motorhead has a purple learn button, or
- Your garage door opener motorhead has a purple antenna, or
- Your original remote has silver buttons with glowing blue lights, or
- Your original remote has black buttons and this logo:

#### Order the 973LM if:

- Your garage door opener motorhead has an orange learn button, or
- Your garage door opener motorhead has a gray antenna

## 374LM/974LM

### 4-Button Remote Control

Our basic 4-button remote control isn't so basic. It can operate up to 4 garage doors or gates, and/or turn your garage door opener lights on/off. You can also use it as an extra remote control to turn on lights or small appliances inside your home – all from the comfort of your car. It features Security+® rolling code technology that sends a brand new code every time it is used. One 5-year 3-volt battery is included.

**The MHz frequency of your garage door opener will determine what remote controls will work with your system. See below to find out which remote to order.**

**Order the 374LM if:**

- Your garage door opener motorhead has a purple learn button, or
- Your garage door opener motorhead has a purple antenna, or
- Your original remote has silver buttons with glowing blue lights, or
- Your original remote has black buttons and this logo:

**Order the 974LM if:**

- Your garage door opener motorhead has an orange learn button, or
- Your garage door opener motorhead has a gray antenna

## **370LM/970LM**

### **Mini 3-Button Remote Control**

Are you always on the go? Our mini 3-button remote control is a miniature version of our 3-button remote control, and just as powerful. It can open and close 3 garage doors or gates, turn opener lights on/off, and/or turn on lights and small appliances in your home. And the best part is that it can fit almost anywhere – in your purse, your pocket, or even on your keychain. It features Security+® rolling code technology that sends a brand new code every time it is used, keeping you, your family, and your belongings safe and secure. One 5-year 3-volt battery is included.

**The MHz frequency of your garage door opener will determine what remote controls will work with your system. See below to find out which remote to order.**

**Order the 370LM if:**

- Your garage door opener motorhead has a purple learn button, or
- Your garage door opener motorhead has a purple antenna, or
- Your original remote has silver buttons with glowing blue lights, or
- Your original remote has black buttons and this logo:

**Order the 970LM if:**

- Your garage door opener motorhead has an orange learn button, or
- Your garage door opener motorhead has a gray antenna
