

3850

DC Motor Belt Drive with EverCharge® Standby Power System

Now when the power goes out, your garage door opener will still work. The LiftMaster® 3850 is the only 3/4 HPS®* professionally installed opener with a fully-integrated standby power system. It will operate the garage door opener for 40 cycles within a 24-hour period, and recharges automatically when the power comes back on; an audible signal tells you when the power is out and the EverCharge® Standby Power System is in use. The safety and security features will continue to operate as well, ensuring your family is protected in a power failure. The opener also features smooth start and smooth stop to reduce the noise of the garage door as it opens and closes – perfect for homes with a room above the garage.

* horsepower strength with same lifting force specifications as 3/4 HP LiftMaster garage door openers

- **Auto-force feature constantly monitors garage door system** and adjusts forces to temperature fluctuations, floor height, and door track movement
- **The Smart Garage Door Opener®** lets you electronically program security codes from the Smart Control Panel® or the powerhead
- Enclosed gear case provides continuous lubrication and protection for **longer life and smoother operation**
- A **6-foot power cord** makes connecting to a power source easier than ever
- **Delivers 200 watts of light** with adjustable light time delay
- **Meets all UL325 requirements**

SAFETY & SECURITY FEATURES

- **The Protector System®** safety sensors project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down
- Sensing technology will **stop the door from closing if contact is made** with a person or object
- Opener lights turn on automatically when The Protector System's infrared beam is broken
- **Security+® rolling code technology** assures a new code is sent every time the remote control is used
- Patented **PosiLock®** system ensures the door remains securely locked when the garage door is closed
- **Manual release handle** in case of power failure

WARRANTY

- Lifetime motor and belt warranty
- 5-year parts warranty
- 1-year warranty on EverCharge® Standby Power System
