

LiftMaster®

Hoist operators are designed for use on rolling doors and grilles as well as industrial sectional doors with high or vertical lift. Hoist operators are available in medium, industrial and heavy industrial-duty.

MH
Medium-Duty Hoist Operator
Model MH is a Medium-Duty Logic hoist operator. It features an adjustable friction clutch, a standard solenoid brake, a high-starting torque motor, a compact design and an emergency chain hoist with an electric interlock.

H
Industrial-Duty Hoist Operator
Model H is an industrial-duty hoist operator. It features a continuous-duty high-starting torque motor, a universal-mount frame design, industrial ball bearings on the output shaft and an emergency chain hoist with an electric interlock.

HJ
Industrial-Duty Hoist/Jackshaft Operator
Model HJ is an industrial-duty hoist/jackshaft operator for use on rolling doors, grilles, and industrial sectional doors with high or vertical lift.

DH
Industrial-Duty Hoist Operator with Internal Door Lock Sensor
Model DH is an industrial-duty hoist operator with an internal door lock sensor. It features a removable hinged electrical box cover, a continuous-duty high-starting torque motor, a universal-mount frame design, and an emergency chain hoist with electric interlock.

DHJ
Industrial-Duty Hoist/Jackshaft Operator with Internal Door Lock Sensor
Model DHJ is a industrial-duty hoist/jackshaft operator with internal door lock sensor for use on rolling doors and grilles.

MGH
Medium-Duty Gear-Reduced Hoist Operator
Model MGH is a medium-duty gear-reduced hoist operator for use on small rolling doors and grilles and industrial sectional doors with high or vertical lift.

GH
Heavy Industrial-Duty Gear-Reduced Hoist Operator
Model GH is a heavy industrial-duty gear-reduced hoist operator. It features a removable hinged electrical box cover and is easily field-converted in seconds for a left or right-handed drive and hoist.

GH5HP
5 HP Heavy Industrial-Duty Gear-Reduced Hoist Operator
Model GH5HP is a heavy industrial-duty gear-reduced hoist operator. It features a continuous-duty 5 HP brake motor, removable hinged electrical box cover and a specially-designed manual hoist gear system.
