

LiftMaster®

Slide door operators are designed for use on single and bi-parting slide doors and fire doors. They are available in industrial and heavy-industrial duty.

GSD
Heavy Industrial-Duty Door Operator for Single and Bi-Parting Doors

Model GSD is a heavy industrial-duty door operator for single and bi-parting doors. It features a continuous-duty high-starting torque motor, a standard solenoid brake, and an emergency disconnect for manual operation.

SD
Industrial-Duty Door Operator for Single and Bi-Parting Doors

Model SD is a heavy industrial-duty door operator for single and bi-parting doors. It features a solenoid brake, heavy-duty hanger brackets and a durable disconnect mechanism.
